

Unscanned glass negative portraits

The following list names is of people in the glass plate negatives archives of the Clinton County Historical Association that have been identified but have not been digitally scanned or included in our online photo archives.

At the present time, only those portrait subjects where a place of residence has also been identified are selected for scanning and online publication. The names below generally do not include a place of residence or they did include a residence that was Plattsburgh Barracks or out of the local three-county region.

The list does include a last name, first names or initials (in most cases), and an exact date that the photo was taken.

The CCHA will search out, scan and publish online any photos from this list. Once published online, a reprint of a scanned photo can be purchased. A search and scanning fee of \$7 is required before the search and scanning is undertaken, however.

To request a search and scan of any of the photos from the following list, contact the Clinton County Historical Assoc. at (518) 561-0340 or e-mail the CCHA director at director@clintoncountyhistorical.org
